

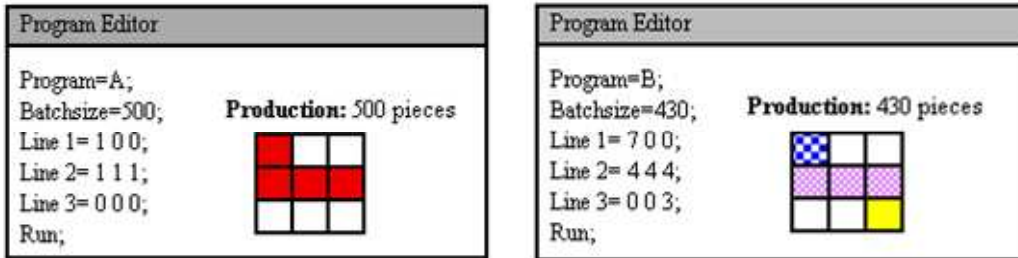

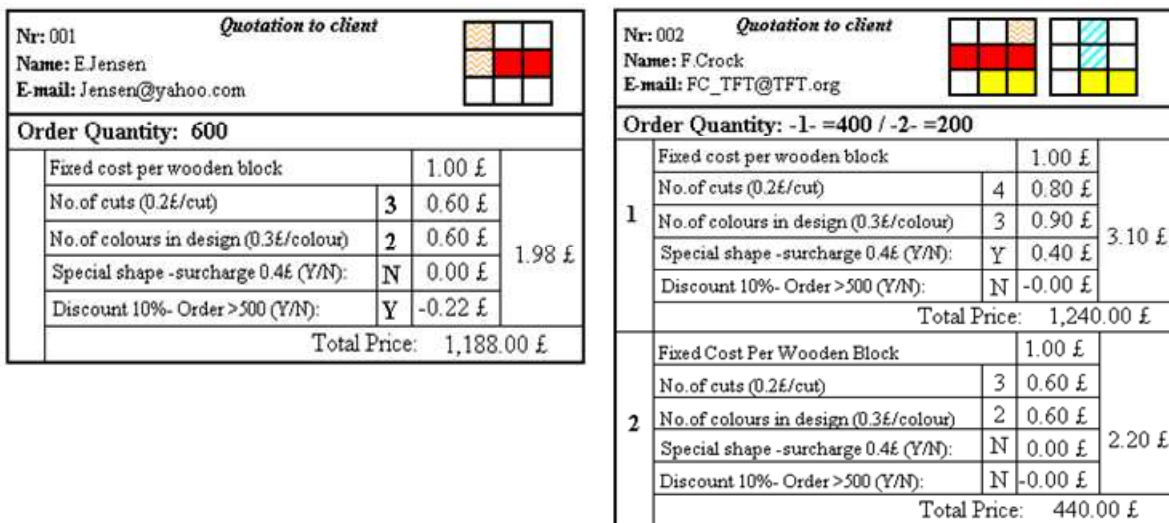

**FIGURE 1**

**Screenshots of the type of activities used in the experimental task <sup>a</sup>**

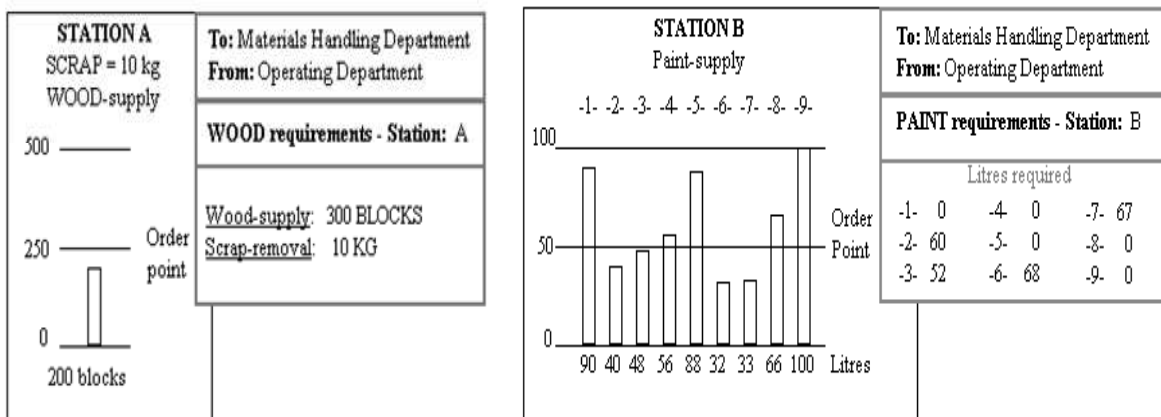

Task A: Machine set-ups for L-shaped format (A1) and special shaped format (A2)

Task B: Price quotations for one product (B1) and multiple products (B2)

Task C: Material requests for wood (C1) and paint (C2)

<sup>a</sup> All participants perform the same 20 task stimuli: three times A2, B1, C1, C2, and four times A1 and B2.
